

CERTIFICATE OF CONFORMANCE

1st. March 2010

RE: USFDA Regulatory Conformance for Food Contact

This is to certify that all of the materials used in the manufacture of Scholle Packaging products, at a minimum, meet the appropriate requirements of the Food and Drug Administration (FDA) concerning food contact, specifically;

- ✓ **21 CFR 177.1340** – Ethylene-methyl acrylate copolymer resins
- ✓ **21 CFR 177.1520** – Olefin polymers, (a) (3) (i), and (c) 3.2
- ✓ **21 CFR 177.1810** (b) (1) (I and ii) – Styrene block polymers, specifically usage for food type category VI, 21 CFR 176.170, Table 1, and condition of use in D in Table 2
- ✓ **21 CFR 177.1350** – Ethylene-vinyl acetate polymers, (a), (b), and (c) additives refer to 21 CFR 178.2010, 21 CFR 178.3860, and 21 CFR 178.3297
- ✓ **21 CFR 178.3297** – Colorants for polymers

Also, please note that the contact polymer resins used in the manufacture of the supplied bags contain no additives added by Scholle Corporation, and are supplied as reported by our raw material supplier.

This declaration does not cover later modification to the composition of the product, whatever the nature of the additives may be. Neither does it cover any action that may lead to denaturation or degeneration of the material.

Please do not hesitate to contact me should you require further information.
